

ACTION PLAN: STUDENT PARTY FOR INNOVATION (SFI)

GENERAL OBJECTIVE:

Strengthen student engagement in the academic and extracurricular life of the BIAST institute, while improving their well-being and academic performance

ASSIGNMENT:

Actively represent the interests of BIAST institute students by promoting their participation, inclusion, and access to academic, social and technological opportunities.

VISION:

Create a united, informed and motivated student community, capable of contributing positively to the reputation of the BIAST institute and the development of the West Cameroon region.

SPECIFIC OBJECTIVES:

1. Digital accessibility:

Establish a Wi-Fi network accessible to all students to improve online learning and academic research. Indeed, access to Wi-Fi and a social network will allow students to better prepare their courses and projects.

2. Community Engagement:

Increase student participation in academic, cultural and sporting activities by 40% in the next six months.

3. Collaboration and communication:

Create a digital platform (student social network) to promote exchanges, collaboration between students and the rapid communication of important information.

4. Improvement of student services:

Work closely with the administration to optimize academic, social and health services, particularly in terms of transport, access to the library and learning conditions

STRATEGIES:

1. Organization of dynamic events:

- Set up sports competitions (football, handball).
- Create artistic and educational clubs (music, dance, theater clubs, and scientific clubs).
- Organize personal and academic development seminars (time management, work methodology).

2. Promotion of communication tools:

- Develop a committee responsible for managing the students' social network and ensuring regular dissemination of information.
- Develop a digital guide to the services and resources available at BIAST.

3. Strengthening partnerships:

- Collaborate with local and national student organizations to provide mentoring, internship and training opportunities.
- Explore partnerships with businesses to improve access to technology (computers, Wi-Fi).

4. Dialogue and active listening:

- Organize monthly forums to collect student suggestions and transmit them to the administration.
- Ensure total transparency in the actions carried out by the SFI.

TASKS AND RESPONSIBILITIES:

➤ ***President (Ndouane Eye'e Jehoiada):***

Responsible for supervising projects, organizing major events and relations with the administration.

➤ ***Vice-president (Tetou Reine Fabiola):***

Senior manager of the student social network and coordinator of digital initiatives.

➤ ***Secretary (Toukam Arnold Blondel):***

Responsible for documentation, activity reports and meeting follow-up.

➤ ***Treasurer (Bieleu Sipowa David):***

Responsible for fund management and financial transparency.

➤ ***Managers of clubs and activities (Binda Caroline Anie and
Sacdeck Fogang Emmanuel Donal):***

Organizers of sporting, artistic and cultural events.

➤ ***Public relations manager (Ngambou Abdel Raman):***

Responsible for communications and partnerships with external institutions and the media.

CONCLUSION

With this plan, the Student Party for Innovation (SFI) is committed to positively transforming student life at BIAST, by creating an environment where every student can flourish academically and socially. This project aims to make BIAST a model of a dynamic and innovative institution in Bafoussam.
